Unit 8: Geometry

Big Idea 1- Measuring and Drawing Angles

- Points, Rays, and Angles
- Measuring Angles
- Circles and Angels

Big Idea 2- Triangles and Angle Measurements

- Name Triangles
- Compose and Decompose Angles
- Real World Problems

Big Idea 3- Analyzing Quadrilaterals

- Parallel and Perpendicular Lines and Line Segments
- Classify Quadrilaterals
- Decompose Quadrilaterals and Triangles

Big Idea 4- Analyzing Polygons

- Classify Polygons
- Line Symmetry
